September 13, 2012

Discovering Julia Morgan

This fall is the perfect time to explore the art and architecture of Julia Morgan (1872-1957), the first woman ever licensed as an architect in California. From October through November, the Julia Morgan 2012 Festival is bringing together tours, talks, exhibits and events throughout California in a six-week celebration of Morgan’s work. Read more
2012 Design Award: Golden Gate Branch Library

In November 2000, San Francisco voters approved a $105.9 million bond measure to upgrade branch libraries throughout the City. Bay Area Paulett Taggart Architects (architecture) and Tom Eliot Fisch (interiors) were selected with a goal to strengthen communities by bringing every neighborhood branch up to building. . .

Healthcare Facilities Forum - October 24, 2012

With the Affordable Care Act now a certainty in California, how has the past year affected the healthcare industry and how will it proceed? Declining reimbursements, hospital physician alignments, emphasis on quality and the ongoing pressure to reduce costs are all moving forward. The expansion of electronic medical records is facilitating . .
